

Qian Chen, Ph.D. is the PI of COBRE in Skeletal Health and Repair in Rhode Island Hospital, a multi-disciplinary translational research center established in 2007. Dr. Chen received his doctoral degree in cell, molecular, and developmental biology from Tufts University School of Medicine, and performed post-doctoral training at Massachusetts General Hospital and Harvard Medical School. Dr. Chen is the Michael G. Ehrlich, MD Endowed Chair in Orthopaedic Research, Professor of Medical Science, and Vice Chair for Research in the Department of Orthopaedics at the Warren Alpert Medical School of Brown University. Dr. Chen's

research interest includes extracellular matrix, epigenetics and RNAi, mechanotransduction, skeletal development and aging associated degenerative diseases, nanomedicine and drug delivery. Dr. Chen served on multiple NIH study sections including the review panels of COBRE, INBRE, and CTR.
